9TH WORLD CONGRESS OF PEDIATRIC CARDIOLOGY & CARDIAC SURGERY

7-12 DECEMBER 2025 • HONG KONG, CHINA

Embracing With All Our Hearts & Moving Forward With Patients

Dear Friends and Colleagues,

We would like to welcome you to Hong Kong, China, in December of 2025 to the Ninth World Congress of Paediatric Cardiology and Cardiac Surgery. Hong Kong, the 'Pearl of the Orient', is an effervescent city that never sleeps. This is the place where East meets West, this is the venue where knowledge sharing and transfer take place, and this is the bridgehead where cultural exchanges are fostered. As the world is entering the era of new normal after the COVID-19 pandemic, the World Congress has found its way to return to Asia.

The Ninth World Congress in 2025 will have a scientific programme that can aptly be represented by five 'I's: Interdisciplinary, Interactive, Innovative, Inspiring, and Intense. Leaders in the field from all parts of the world will join efforts to develop an exciting programme that spans the full spectrum, ranging from clinical to basic subjects, common to rare conditions, disease to health, humanitarian programme to human footprint, real to unreal, and traditional core to cutting edge topics in developing and developed countries. There will be 18 tracks with defined course content, interdisciplinary mingling, interactive workshops, sparking debates, plenary sessions, pre-congress symposia, and oral and poster abstract presentations. Special topics include artificial intelligence and augmented reality, digital health and big data, innovative therapies from genes to cells, personalized paediatric cardiac care, and rare disease.

We look forward to welcoming all of you to Hong Kong, the most vibrant city in the Greater Bay Area of China!

Sincerely,

Prof. Yiu-fai Cheung

GENERAL INFORMATION

ABOUT HONG KONG

It is a unique destination that has absorbed people and cultural influences from around the world proudly proclaims itself to be Asia's World City.

Hong Kong has been a major destination for tourists and business people from around the world for at least a century. Today it is also a major tourism destination for China's increasingly affluent mainland population. It is an important air hub with connections to many of the world's cities.

Hong Kong is much more than a harbour city with crowded streets: this territory with its cloudy mountains and rocky islands also offers rural landscapes with breathtaking views. Much of the countryside is classified as Country Park and, although 7.4 million people (2021) are never far away, it is possible to find pockets of wilderness that will reward the more intrepid travelers.

Time Difference: GMT + 8 hours. Abbreviation: HKT - Hong Kong Time.

Location

Hong Kong's location, at the south-eastern tip of China and in the heart of rapidly developing East Asia, gives it economic and strategic importance out of proportion to its size. Covering a total land area of 1110.18 square kilometres, the territory comprises Hong Kong Island, the Kowloon Peninsula and the more rural New Territories, which also includes 261 outlying islands.

Climate

Hong Kong has a subtropical climate with hot and humid summer and cool and dry winter.

From the middle of September to early December is autumn. It's the sunniest season in Hong Kong with warm weather and low humidity, and probably the best time to visit Hong Kong. The temperature ranges between 23°C-28°C/73°F-82°F. From the middle of December to February is usually the winter. Winter in Hong Kong is cool and dry. The temperature ranges between 15°C-20°C/59°F-68°F.

Getting to and From the Airport

Located on the Lantau Island, the Hong Kong International Airport has a comprehensive and well-developed transportation network. One could easily commute between the airport and the city in around 30 minutes with a reasonable fare, using the Airport Express, buses, taxis or hotel shuttle buses.

9TH WORLD CONGRESS OF PEDIATRIC CARDIOLOGY & CARDIAC SURGERY

7-12 DECEMBER 2025 • HONG KONG, CHINA

Embracing With All Our Hearts & Moving Forward With Patients

Airport Express

The MTR's high-speed Airport Express takes approximately 24 minutes to reach Hong Kong Island and is the fastest way to get between the city and the airport. Both Kowloon and Hong Kong stations provide free in-town check-in services for major airlines. Please contact your airline for further information.

Taxi

Taxis are readily available from the taxi pick-up area in front of the airport's Arrivals Hall. If you're travelling to Hong Kong Island or Kowloon you'll need to catch a red taxi. If you're headed for the New Territories you'll need a green taxi, and those going to Lantau Island will require a blue taxi. All taxis in Hong Kong are able to take passengers to and from the airport. Fares are metered and detailed information about charges are clearly displayed inside each cab.

Bus

There are more than 20 convenient Airbus 'A' routes that can take you from the airport to key locations on Hong Kong Island, Kowloon and in the New Territories (including Lantau Island) with fewer stops than an ordinary city bus. When you exit the Arrivals Hall, turn right to find Airbuses and city buses.

Coach and Limousine Charter

Passengers who require their own personal limousines, minivans, vans and group coaches (buses) can book their transport from service providers located in the Arrivals Hall.

VISA INFORMATION

Nationals of about 170 countries and territories may visit Hong Kong visa-free for a period ranging from 7 days to 180 days. However, some countries need to apply for the visas to the Chinese Embassy in their home countries or post the application to Hong Kong Immigration Department.

Please check this webpage to learn whether you need a visa or entry permit to enter Hong Kong for a visit or transit.

<https://www.immd.gov.hk/eng/services/visas/visit-transit/visit-visa-entry-permit.html>

INVITATION LETTER

The invitation letter will be provided to the participants that has been registered and paid the full fee. Once your registration and payment is completed you may obtain your invitation letter by visiting your registration account and clicking the invitation letter section. Please note that this section will not be available at your registration account without having a fully paid registration.

CONGRESS VENUE

Hong Kong Convention and Exhibition Centre

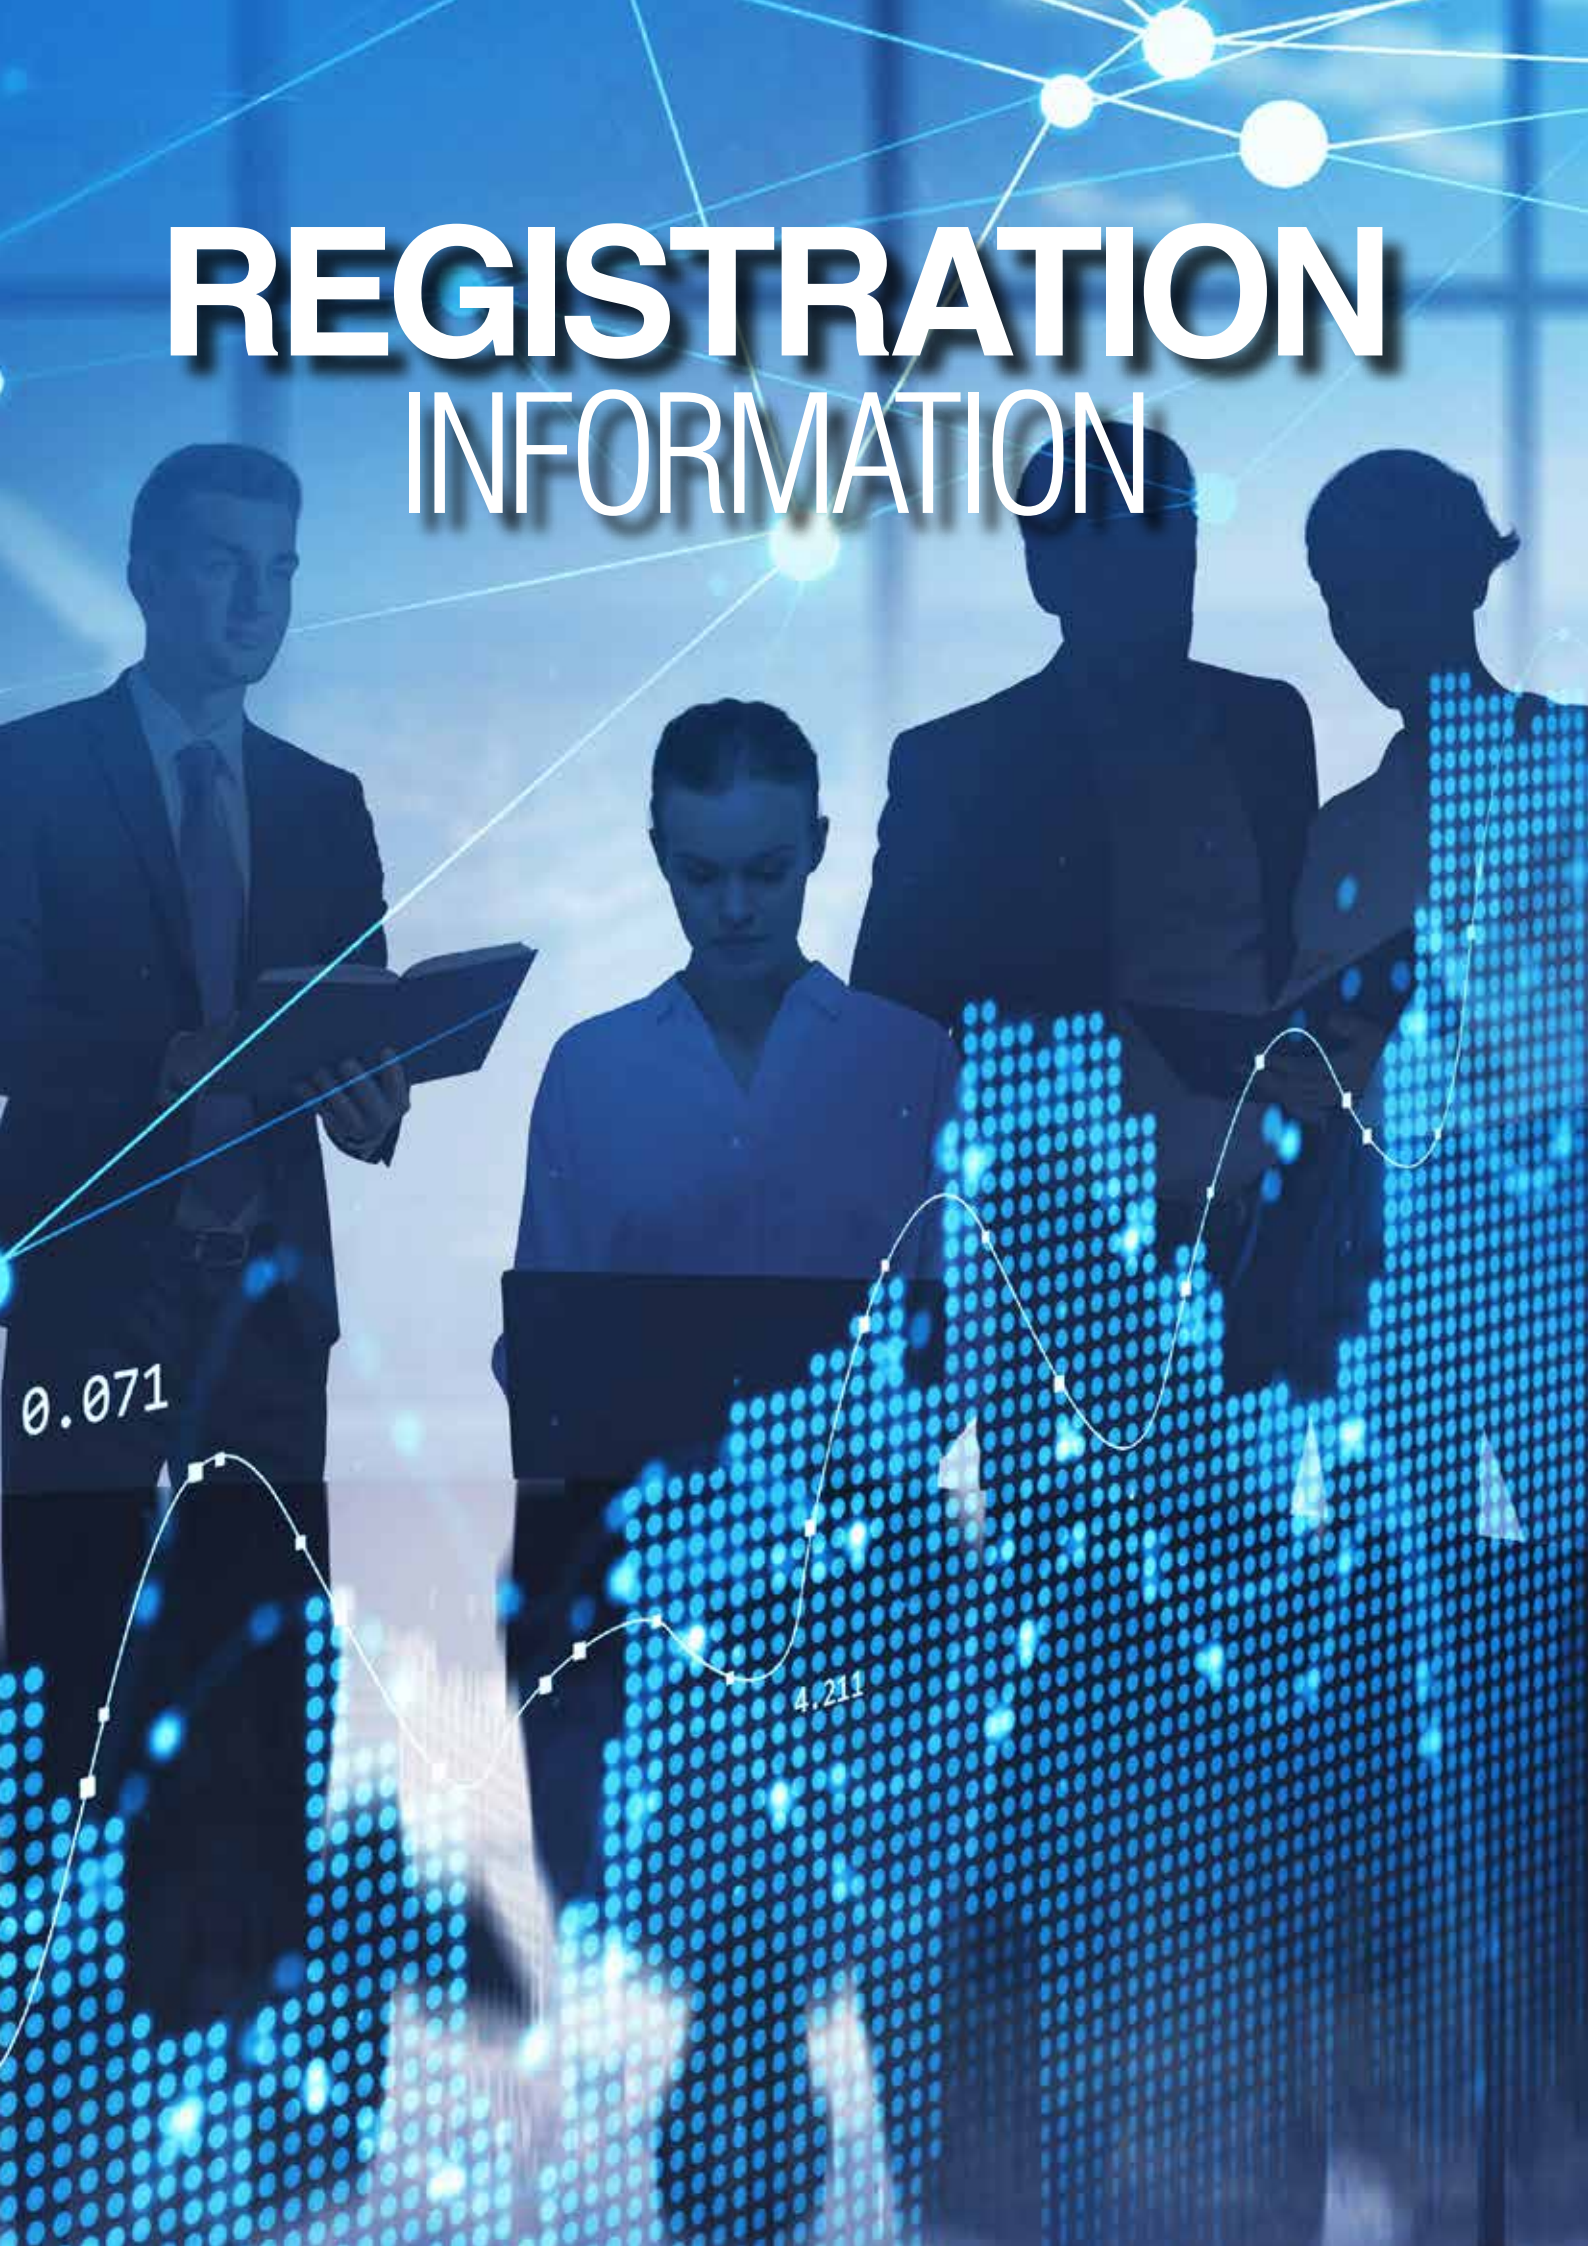

9th World Congress of Pediatric Cardiology and Cardiac Surgery 2025 will be held at The Hong Kong Convention and Exhibition Centre (HKCEC).

The iconic architecture of the HKCEC stands proudly on the waterfront of Hong Kong's world-famous Victoria Harbour. This is more than simply a breath-taking location – it also places the Centre right at the heart of the city, within the Central Business District. Not only does the harbour location provide a spectacular backdrop to events but it also means Hong Kong's Central Business District and the best of the city is on the Centre's doorstep – and it's a vibrant city packed full of colour and life.
